WWW.RAYHER.COM

Used items:

83 031 572	Leatherette strap, metallic flat, anthracite	2 m
83 031 626	Leatherette strap, metallic flat, pinky-gold	2 m
14 202 572	Glass faceted bead, 3 mm ø, anthracite opaque	158 pieces
14 200 572	Glass faceted bead, 4 mm ø, anthracite opaque	20 pieces
14 840 509	Antique Rocailles, 4 mm ø, taupe	110 pieces
14 200 638	Glass faceted bead, 4 mm ø, copper semi-opaque	20 pieces
21 106 22	Jewellery wire, 0,4 mm, silver	1.50 m
22 885 01	Magnet clasp Olive, black	1 piece
22 252 21	Crimps platinum	46 pieces

Additionally you need:

24 068 00	Special wire to thread beads	some
33 397 00	Glue for jewellery	some
89 378 00	Craft scissors	
89 342 00	Side cutter for jewellery	
89 541 00	Flat round pliers for jewellery	

Instructions:

1 Cut the anthracite leatherette strap (4 × 50 cm) and the pinky-gold one (4 × 50 cm) to size by means of the scissors.

2 Cut the jewellery wire to size of 4 × 50 cm by means of the side cutter. Attach a crimp bead at each end of the three jewellery wires by using the flat pliers. Hold all of the leatherette straps and jewellery wires flush and fix them with some wire.

3 Now, thread 158 anthracite glass faceted beads of 3 mm ø on a jewellery wire and attach a crimp bead at its extremity. The jewellery wire is going to be shortened only at the end.

4 Thread on a further jewellery wire in turn 1 anthracite glass faceted bead of 4 mm ø, and 5 taupe Antique Rocailles of 4 mm ø, in total 20 glass faceted beads and 110 Antique Rocailles, thereafter fix a crimp bead at the outer end of the jewellery wire.

5 Now, thread successively 1 crimp bead, 1 pinky-gold glass faceted bead, 1 crimp bead on a jewellery wire – in total 20 glass faceted beads and 40 crimp beads.

6 Fix the crimp beads as following: Fix 1 crimp bead at a distance of every 2 cm by means of the flat pliers, slide to it a glass faceted bead and a crimp bead, and fix the crimp beads. Fix all others as well.

7 Lay the necklace round, shorten the ends and fasten the jewellery wires once again with crimp beads, and fuse them all together with some wire.

8 At the end, affix the ends into the magnet clasp with some glue for jewellery and let it harden for 12 hours.
