

**HANDICRAFT TIP**

GB

A romantic atmosphere in the bathroom. Roses made from modelling soap.

[WWW.RAYHER.COM](http://WWW.RAYHER.COM)

## Used items:

**34 223 000** Modelling soap  
**34 246 313** Soap colour, purple

15 g  
3-4 drops

## Additionally you need:

**64 583 505** Craft wooden sticks  
Hot water, cooking oil, mixing vessel

## Instructions:

- 1 For one rose, mix 15 g of modelling soap, 6 ml of hot water, about 3 drops of cooking oil and 3-4 drops of soap colour.
- 2 Stir this mixture using a craft wooden stick and let it rest for 10 minutes.
- 3 Then knead the resulting mixture well.
- 4 Take a ball of this mixture of around 0.5 cm to 1 cm (depending on the size of the rose petal) and shape it into a rose petal. Gently fold the petal towards the middle of the rose. Any small cracks can be repaired with a little water.
- 5 Shape the next rose petal in the same way and place it on top of the first. Do the same for the rest of the rose petals and place them on top in turn. Slightly fold the top edge of each petal outwards.
