

CRAFTING IDEA

Round light-pink soap
with cream rosette

Used items:

Soap

34 231 000	Soap casting mould: Round, round & small	40 mm
34 228 000	Creative-soap	41 g
34 246 313	Soap-colour, purple	
34 222 000	Bath salt	

Cream rosette

34 223 000	Kneading-soap
89 799 000	Pastry bag with 4 tips

Cookie cutter

34 228 000	Creative-soap
34 246 532	Soap-colour, nougat
61 098 00	Wooden skewer, 3 mm ø

Additionally you need:

Scales, pot, melting pot, small plastic container, stirrers, kettle, cooking oil, craft stick

Instructions:

Soap

- 1** Melt the creative-soap in a water-bath on the stove (max. 60° - do not boil).
- 2** After the complete melting, you can stir the desired colour and/or fragrance oil in the liquid soap. Therefore, use a wooden spatula or a teaspoon. Pour it dropwise.
- 3** Let the soap dry well out (at least 2-3 hours, ideally one day).
- 4** Demould the soap by a slight pressure.
- 5** Put a cream rosette (see instructions for cream rosette) with some liquid white soap onto the moulded soap bar.
- 6** Push a heart cut-out by cookie cutter into still wet cream rosette (see instructions for cookie cutter).
- 7** At the end, put some bath salt grains with some liquid white soap onto the soap-candy.

Cream rosette

- 8** Mix the kneading-soap with hot water and the cooking oil - 50g of the kneading-soap with 20ml of hot water and about 5ml of the cooking oil.
- 9** Stir this mixture with a craft stick and let it rest for 10 minutes.
- 10** Then knead the mixture well again.
- 11** Build together a pastry bag (without a bag) and fill it with some kneading-soap.
- 12** Push the kneading-soap with a finger through the tip and shape at once the pushed out mixture.

TIME REQUIRED
30 MINUTES
(WITHOUT CASTING
& DRYING TIME)

LEVEL OF DIFFICULTY

Cookie cutter

13 Melt the creative-soap in a water-bath on the stove (max. 60° - do not boil).

14 After the complete melting, you can stir the colour in the liquid soap. Therefore, use a wooden spatula or a teaspoon. Pour it dropwise.

15 Pour the melted soap onto a flat surface such as a small lid or some aluminum foil.

16 Once the soap hardened, after at least half an hour, you can cut the desired motifs out by means of the cookie cutters.

Additional info and tools

The soap dries or rather carries on ripening and becomes thereby firmer (two up to three weeks). Depending on the temperature and airiness, the soap can perspire. We recommend therefore to wrap the soap after its demoulding in a cellophane foil. Clean the soap casting mould and the pots with hot water.
