Jewellery display.
Viennese wicker as a storage unit.

WWW.RAYHER.COM

Used items:

65 397 505	Viennese wickerwork, natural	16 × 21 cm
64 650 505	Wooden blocks + sheets set, natural	8 blocks
35 077 576	Allround Paint, acrylic, black	some

Additionally you need:

33 487 000 Glue fix pen
Scissors, paintbrush, double-sided adhesive tape, hot-melt glue

Instructions:

- 1 Glue the four 19 cm long wooden blocks together in order to make a frame measuring 19 × 23 cm. To do this, you'll need the glue fix pen.
- 2 Take the black acrylic paint to paint 4 wooden blocks (2 of them measuring 10.5 cm and the other 2 measuring 8.5 cm) for the jewellery display base. Allow the paint to dry.
- 3 Cut the viennese wicker with scissors to the size of 16 × 21 cm.
TIP If the wicker is too stiff, you can iron it with a steam iron to soften it.
- 4 Glue the front side of the Viennese wicker to the rear side of the frame moulding. During the drying stage, place a heavy book on top of the viennese wicker to keep it flat and straight.
- 5 Glue the painted wooden blocks to the front and rear side of the frame so that the side edges of the base and frame are aligned.
