67 376 999	Craft paper, colour-assorted, DIN A4, colourful	

Additionally you need:

33 396 00 Paper glue
sewing needle

Instruction:

- 1 Cut out the required pattern pieces from the craft paper using the cutting template.
- 2 Glue the individual pattern pieces together.
- 3 Using e.g. a sewing needle, poke a hole at the tip of each star. Thread the red and the white yarn through the hole and thread on an additional wooden bead.
- 4 Now you can string the garland to your liking. It's best to use a sewing needle when stringing, this way you can pierce the snowballs more easily.

TIP: If you glue a small crosspiece made from a strip of paper to the back of the snowman's hat and at the top of the tree, the snowman and the tree will hang more nicely on the garland.
