## Instructions:

**1** Thread on successively the Rocailles (see diagram), slide the Rocailles towards the centre of the strand. Then thread back through the last Rocaille (stairstep stitch).

**2** Repeat until all of the Rocailles are joined together. In order to densify, thread again through the penultimate and the last Rocaille.

**3** Brick stitch: thread on the first Rocaille of the second row and thread it between the Rocailles of the first row.

**4** Thread back through the Rocaille.

**5** Repeat the steps 3 and 4 until the tip of the Heart Charm is threaded.

**6** Thread on the last Rocaille and thread back through the Rocaille that underlies next to the strand.

**7** Thread once more through to densify it, then sew the strand up and cut the rest off.

**8** Thread the upper section of the Heart Charm with the other half of the strand (see diagram).

**9** Thread one side of the heart's arch.

**10** Thread back.

**11** Thread between two Rocailles with the strand, then thread the other arch.

**12** Thread on seven Rocailles, thread back and then through this loop 3-4 times in order to densify it.

**13** Sew the strand up and cut the rest off. Make another heart.

**14** Open a creole and thread on 5 black rocailles. Close the creole and press it shut with flat nose pliers.

**15** Hang a heart with a small ring in the middle of the creole.

**16** For your other earring, hang the heart with the loop on the left. Finally, hang the earhooks into the eyelets of the creoles.
