A soap „made by me 100%“

WWW.RAYHER.COM

Used items:

- 34 228 000** Creative-soap
 - 34 231 000** Soap casting mould: round
 - 34 270 000** Label "Handgemachte ...", 45mm ø
 - 34 246 532** Soap colour, nougat
 - 34 247 000** Soap fragrance oil, coconut
- 1-2 drops
1 drop

Additionally you need:

Stove, pot, melting pot, scale, small plastic container, craft stick as a stirrer or teaspoon, tablespoon

Instructions:

- 1** Melt the creative-soap in a water-bath on the stove (max. 60° - do not boil).
- 2** After the complete melting, you can stir the desired colour and fragrance oil in the liquid soap. Therefore, use a craft stick or a teaspoon.
- 3** For the soaps with motif or logo, place upwards the label with the stamping.
- 4** To avoid blistering or slipping of the label, use at best a tablespoon with which you fill the casting mould with the liquid soap.
- 5** Let the soap dry well out (at least 2-3 hours, ideally one day). Demould the soap by a slight pressure.
- 6** Remove the label at best with a pointed object e.g. a needle

Tip Let the finished soap dry at best for 2-3 weeks; the longer it ripens, the firmer becomes.

7 Depending on the temperature and airiness, the soap can perspire. We therefore recommend to wrap the soap after its demoulding in a transparent foil for flowers (cellophane).

8 Clean soap casting mould and pots with hot water.
