

CRAFTING IDEA

Love is all you need.
Cast a soap for your beloved
ones.

Used items:

34 231 000	Soap casting mould: Round	1 piece
34 228 000	Creative-soap	55 g
34 246 210	Soap colour, orange	3-4 drops
34 250 000	Soap-scented oil, vanilla	1 drop
34 310 000	Labels GB "All you need is Love", 45 mm ø	1 piece

Additionally you need:

Stove, heat-resistant vessel for the water bath, cooking pot, spoon, cellophane wrap or cling film

Instruction:

1 Melt the soap in a heat-resistant vessel intended for water bath on the stove (at max. 60°C - do not boil).

CAUTION: Never place the melting pot with soap directly on an open flame or a hot stovetop! Risk of fire! Do not expose the melted soap to a temperature above 60°C for a long time.

2 After melting, add the soap colour and the soap-scented oil.

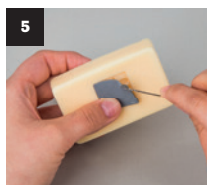

3 To cast the motif, put the label inside the casting mould before pouring. Pay attention when inserting the motif that the writing remains visible.

4 Then pour the liquid soap slowly over the label with a spoon to cover it entirely with a thin layer. Only then fill up slowly the rest of the mould with the remaining liquid soap.

5 Then allow the soap to dry out in the casting mould for at least 2-3 hours. When the soap has hardened, you can demould it and take out the label by means of a thin needle. Clean the label and the soap casting mould with water for further use.

IMPORTANT: wrap the soap in foil immediately after demoulding.

6 Finally, let the finished soap to dry well out (for 3-4 days).

* without drying time
