**15 318 37** Plastic rhinestones, self-adhesive, crystal 2 m  
**30 068 000** Special double-sided adhesive tape

## Additionally you need:

- 57 985 000** Sure Cut paper cutting machine A4  
 Ruler, scissors, pencil

## Instructions:

- 1** Cut the inner part as shown in the drawing and fold all dotted lines. Now, cut the solid lines in and cut the striped surfaces away. Cling together the sheet to an open box with the double outer walls.
- 2+3** Cut and fold the inner strips as shown in the drawing and bend these ones as shown in the picture into mountain or rather valley folds. Stick those onto the bottom of the box.
- 4** Cut and fold now the outer part too as well a slot for the ribbon as shown in the drawing.

5 Stick this one to a box together.

6 Now, pull upwards the ribbon through the slot, so that the ribbon is of the same length on both sides.

7 Now, you can slide the finished inner part into the cardboard, thereby the ribbon pulls itself downwards and it can be tied up. Now if you pull on the ribbon, the inner box slides again. Finally, stamp all of them and decorate it as shown on the cover picture.
