89 542 00	Punches for jewellery
89 541 00	Flat round pliers for jewellery

Instructions:

- 1 Form 2 rings with the aluminium wire. First make an eye with the punch 8954200.
- 2 Then form the ring as shown in the picture, for this use the curve of the wire. Wrap the wire around the piece under the eye and pinch off the rest.
- 3 Fix 1,30 m special wire to thread beads on the ring and pinch off the rest.
- 4 Thread on the rocailles and the glass sticks in rows, always wrap the wire around the ring on the opposite side. Repeat this step until the whole ring is full of beads. Finally wrap the wire tight around the ring and thread it through 1-2 rows to fix it. Create the second earring in the same way.
- 5 Finally open the hooks carefully with the flat pliers and hang in the wire-rings.
