## Additionally you need:

**35 038 576** Multi-Liner, black

**33 376 00** Mini hot-melt glue gun, low-temperature

Strong white paper (wings, halo), template Wings + Halo, strong gold paper (crown, sheet of music), scissors, possibly pinking shears, pencil, felt or fabric offcuts, paintbrush

## Instructions:

**1** Start with designing the nativity scene figures. Lightly outline the face and the hair of each figure with a pencil. Paint details with the respective colour and add subtle highlights by means of the black multi-liner. Take care that the surface is dry.

**2** The next step would be to paint the roof of the Christmas crib with the nougat-coloured all-purpose paint. Paint a star for the roof of the barn with the golden metallic all-purpose paint. Let the painted surfaces dry well out.

Halo

Angel wings

**3** Meanwhile, draw the wings and the halo for the angel using the template and cut them out.

**4** Cut the king's crown from strong gold paper – take the pinking shears to make this task easier for you.

**5** To make the baby Jesus, wrap a felt or fabric remnant around the little peg doll and affix it with hot-melt glue.

**6** Then finish the angel and the king by affixing the chenille wire serving as a scarf, wings and halo on the angel and as a crown on the king with a drop of hot-melt glue.

**7** Finally, decorate the barn where the baby Jesus is with pieces of bark and decorative grass.

The Christmas story can now begin.
