Stone casting

WWW.RAYHER.COM

Used items:

A: Stone out of Raysin "Dot-Painting"

36 990 00	Casting powder "Raysin" 200	120 g
36 102 000	Silicone casting mould Stone	1 piece
38 000 576	All Purpose paint, black	1/20 bottle
35 014 616	Extreme Sheen, gold	1/30 bottle
38 000 100	All Purpose paint, snow-white	1/30 bottle
38 876 000	Chalky Finish Clear varnish, soft-touch	1/50 can

Additionally you need:

35 033 000	Dot Painting metallic stylus	1 piece
37 080 000	Paintbrush set Hobby Kreativ	1 set
89 530 00	Sandpaper	1 piece
61 216 31	Craft wooden stick	1 piece

Scales, mixing cup, water, aluminium foil

Instructions

- 1 Mix 120 g of Raysin 200 according to instructions, mix it evenly and pour out the big, round stone in a casting mould.
- 2 After about 1 hour, you can turn the mould upside down and remove the stone from the casting mould (demould). Allow the stone to dry thoroughly out for several days.
- 3 Smooth the resulting stone edges with sandpaper.
- 4 Paint the stone with the black All Purpose paint. You can draw various dots by means of the metallic Dot Painting stylus and the snow-white All Purpose paint. Start working from the middle of the stone and continue by forming a star-shape with wide spaces in between. Then use the gold Extreme Sheen paint and draw small star-shaped dots in between.
- 5 It looks really nice when you draw a small golden dot on the white ones that are in the middle of the stone.

Used items:

B: Creative-cement Stone "Happiness"

34 152 000	Creative-cement	150 g
36 102 000	Silicone casting mould Stone	1 piece
38 867 102	Chalky Finish, white	1/50 can
35 014 616	Extreme Sheen, gold	1/50 bottle
45 138 000	Screen printing stencil with word, A5	1 piece
38 876 000	Chalky Finish Clear varnish, soft-touch	1/50 can

Additionally you need:

37 080 000	Paintbrush set Hobby Kreativ	1 set
89 530 00	Sandpaper	1 piece
61 216 31	Craft wooden stick	1 piece
89 378 00	Craft scissors	1 piece

Scales, mixing cup, water, aluminium foil

Instructions

- 1 Mix 150 g of creative-cement according to instructions, mix it evenly and pour out the big, oval stone in a casting mould.
 - 2 The very next day, you can turn the mould upside down and remove the stone from the mould (demould). Allow the stone to dry thoroughly out for several days.
 - 3 Smooth the resulting stone edges with sandpaper.
 - 4 Cut out the motif "Happiness" from the screen printing stencil and peel off the backing paper from the stencil. Place the motif in the middle of the stone. Stretch the stencil slightly over the surface of the stone and rub it firmly with your fingers. The applied motif should not form any creases, should lie fully on the surface and should be snug-fitting to the surface shape of the stone.
 - 5 Now spread, quickly and evenly, the white Chalky Finish paint over the letters on the stencil by means of the paintbrush. Paint the small heart with the gold Extreme Sheen paint. After stencilling, carefully remove the stencil sideways and clean it immediately with water.
 - 6 Let the stone dry well out.
- TIP:** In order to protect them, you can coat the stones with Chalky Finish Soft-Touch Clear varnish.
