

CRAFTING IDEA

GB

Starry sky made of straw.
Create your own star shape.

Used items:

- 46 539 505** Straw stars to hang up, ø 11 cm, natural
- 25 053 01** Metal rings, coated, ø 25 cm, black
- 53 587 701** Metallic yarn „Stich & Knot“, frost
- 33 397 00** Jewellery glue

- 1 package
- 1 piece
- 0.5 m
- 3 g

Additionally you need:

- 89 379 00** Pointed tip paper scissors 11 cm
- Cardboard

Instructions:

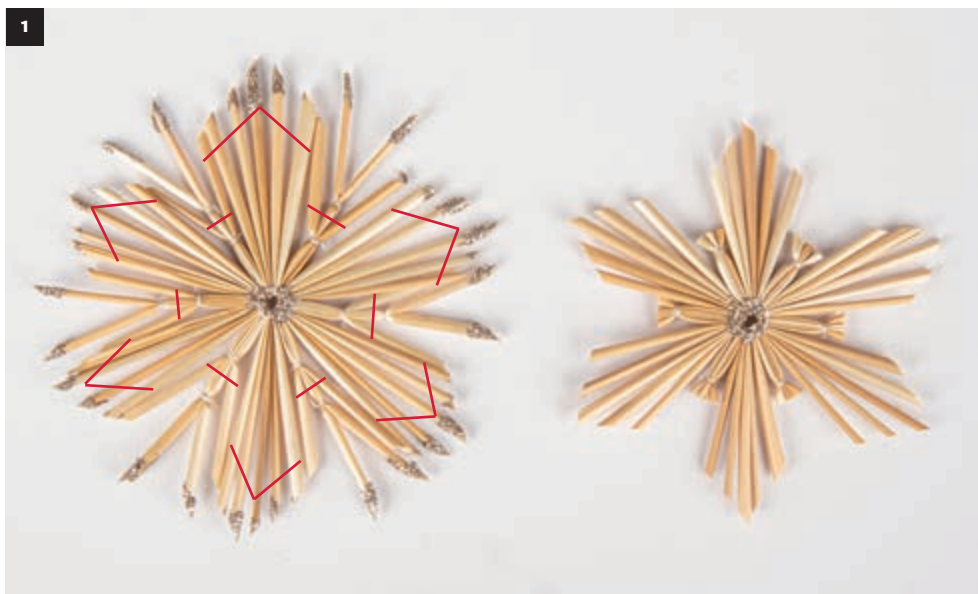

Cut the straw stars according to the template (step-by-step pictures) with the pointed tip paper scissors. The red markings will make it easier for you. Note that the cuttings were made specifically for 2 models of the stars from the box.

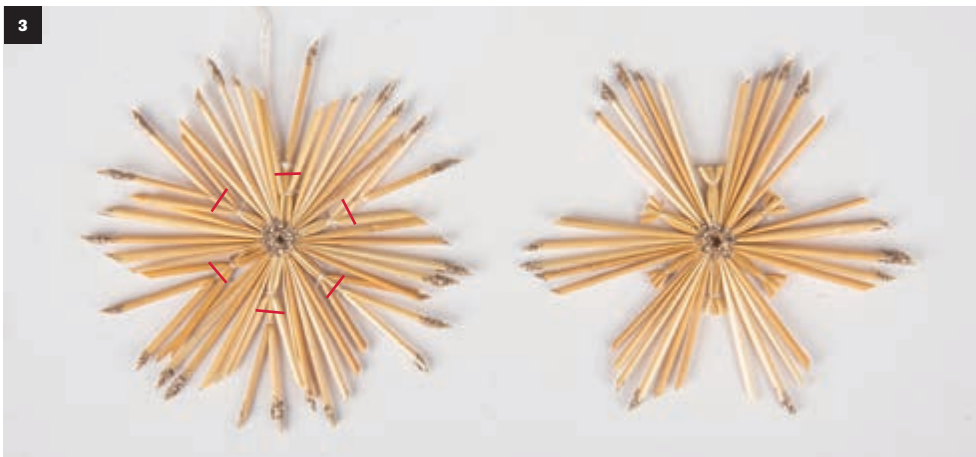

Put the stars on the metal ring and affix them firmly in place by means of the jewellery glue.

Lay a solid underlay, e.g. cardboard, on the ring with the stars and turn it over so that the ring is now on top. Allow it to dry out.

Use the metallic yarn “Stich&Knot” (frost) to hook the ring.
