Used items:

31 402 00	Pillar candle	1 piece
31 596 000	Transfer foil A4	1/4 sheet
50 254 000	Clear stamps – Christmas gnome	1 piece
29 206 576	StazOn pigmented ink-pad, black	1 piece

Additionally you need:

Small bowl with lukewarm water
Soft cloth or paper towel
Baker's twine or any other decorative ribbon

Instruction:

- 1 Stamp the motif onto the shiny side of the transfer foil, and let it dry well out.
- 2 Then cut out the stamped motif with a narrow edge along its outline and lay it in a lukewarm water for about 30-60 seconds until the carrier foil begins to detach from the foil.
- 3 Then carefully take the motif out of the water with the carrier foil and slide it onto the candle.
- 4 Use a soft cloth or paper towel to dab off the water drops and carefully smooth out any creases.

The motif can still be easily slid and adjusted in the first few minutes.
Drying time: approx. 6 hours, best overnight.

- 5 To make your candle even more beautiful, you can wrap a baker's twine/ribbon around the bottom of the candle.

CAUTION: Do NOT coat the candle with candle varnish, as this will dissolve and fade the stamped motif.
