Ruler

Instruction:

- 1 Stick the cutting pattern B together to the dashed line (B1+B2)
- 2 Cut the plush fabric on the fold using the cutting pattern.
- 3 For the styrofoam cone, slit lengthwise from the tip to the lower edge by means of the precision craft cutter.
- 4 Affix the extra strong double-sided adhesive tape to the lower edge of the styrofoam cone.
- 5 Use the scissors to pierce a hole at the bottom of the styrofoam cone onto which the decorative wooden disc will later be glued.
- 6 Place the long side of the plush fabric along the slit and insert the plush fabric into the slit by means of the open scissors.

- 7 Affix the lower edge of the plush fabric to the adhesive tape and then insert the other long edge into the slit.
- 8 Cut out a circle (according to the size of the bottom of the styrofoam cone) from the felt sheet. In the latter, cut a small hole in the middle in the size (diameter) of the trunk.
- 9 Use the mini hot-melt glue gun to glue the round felt pad to the bottom of the styrofoam cone. Stick the decorative wooden disc into the opening.
- 10 Finally, glue the wooden star on the top of the tree.
