

HANDICRAFT TIP

GB

Summer is just ahead.
Dried flowers and wood
picks in a glass jar.

WWW.RAYHER.COM

Used items:

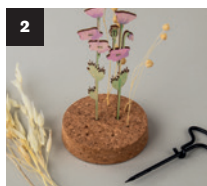

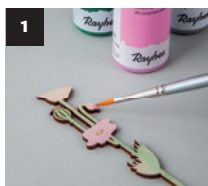

56 612 000	Glass container with cork lid, ø 9.5 cm	1 piece
38 000 267	All-purpose paint, pink	1/100 bottle
38 000 428	All-purpose paint, leafgreen	1/100 bottle
64 531 505	Wood pick Poppy & Grass, FSC Mix Credit	1 bag
85 490 505	Dried flower bouquet with paper sleeve	1 bouquet

Additionally you need:

Paintbrush, hot melt glue gun, scissors, jute cord

Instructions:

- 1 Paint the wood picks Poppy with the all-purpose paint and let them dry well out.
- 2 Drill holes in the cork lid using the gimlets. Use the gimlet of 2-3 mm for the dried flowers and the 5-6 mm one for the wood picks. Insert the dried flowers and the painted wood picks into the pre-drilled holes.
- 3 Put carefully the glass jar over the dried flowers inserted in the cork lid. Then you can decorate further your glass jar with a jute cord, additional dried flowers or wood picks.

TIP: You can also use the glass jar turned upside-down. If doing so, make a small bouquet out of dried flowers, in which you could insert e.g. the wooden pick Eucalyptus (item no. 64 528 505). Affix the bouquet to the bottom of the jar using the hot melt glue gun. Then close the jar with the cork lid and decorate it to your liking.

* without drying time
