Christmas bauble „Liv“ Royal red & gold stripes

Used items:

39 576 800	Plastic balls „Liv“, white	1/3 set
38 000 295	All-purpose paint, royal red	1/20 bottle
33 395 00	Special double-sided adhesive tape, highly transparent	96 cm
21 700 06	Decorative metal, gold	1/10 box
38 066 000	Triple Gloss	1/20 can

Additionally you need:

37 053 000	Paintbrush set Hobby Kreativ	1 set
33 601 00	Foam brick, individually shrink-wrapped	1 piece
	Wooden stick or paintbrush handle	
	Scissors	

Instructions:

- 1 Remove the hanger with a cap from the ball and insert a matching wooden stick or paintbrush handle into the opening. Paint the ball completely out with the royal red All-purpose paint by means of the widest paintbrush from the set. To dry, put the ball in a holding device (e.g. a foam brick). During the process of creation, keep the wooden stick in place inside the ball at all times. For a rich, uniform colour result, apply a second layer of the paint. Allow it to dry well out.
- 2 Then paint the ball, quickly and evenly, with Triple Gloss using the thin flat paintbrush from the set. Put the ball vertically into the holding device to dry in order to avoid the paint sagging. Allow it to dry well out again.
- 3 Stick the special double-sided adhesive tape over the vertical edges. Put carefully the decorative metal flat on the adhesive surface and press slightly on, so that the stripes are completely covered with the decorative metal. Remove the excess flakes by means of a soft paintbrush.
- 4 Remove the wooden stick/paintbrush handle and put the hanger with a cap back.
