69 093 000	Motif puncher: Tag	1 piece
73 243 408	Paperado cardboard DIN A4, mint green	1/60 sheet
51 704 616	Cord, ø 1 mm, gold	0.25 m

Additionally you need:

28 606 00 Acrylic stamp block
Paintbrush, scissors, double-sided adhesive tape, mixing vessel,
poss. sandpaper, hole punch pliers

Instructions:

1 Mix 80 g of Raysin 200 following the instructions on the package and cast the gnome family and the fir trees to a thickness of about 4 mm.

2 After drying for about 1 hour, they should be carefully demoulded. However, the castings should be left to dry for one or two days. If necessary, you can sand the edges on the rear side with sandpaper.

3 Then, paint the gnome family with the acrylic paints. Let them dry thoroughly.

4 Paint the wooden holder with slots using the sandalwood-coloured acrylic paint. Let it dry thoroughly.

5 Use the motif puncher to make a gift tag out of cardboard. Apply the Clear Stamps "letterbox" stamp to the gift tag and the "footprint" stamp to the right-hand side of the wooden holder. Then hang the gift tag on the big fir tree using the gold cord.

And as a final stage, stick the snow-covered fir tree and the Raysin fir tree to the wooden holder using double-sided adhesive tape.

* Without drying time
