

CRAFTING TIP

Snow flurry.
Your winter garden for indoors

Used items:

62 731 000	Wooden tray, FSC Mix Credit, 30 cm ø	1 piece
38 000 100	All purpose paint, snow-white	10 ml
33 601 000	Plug-in dry brick	1 piece
39 484 000	Pearlescent natural pebbles	125 ml
85 083 000	Moss panel, dried-out	50 g
66 065 000	Snow flocked deco-spruce	2 pieces
66 066 000	Snow flocked deco-cypress	2 pieces
46 062 102	Arbour, white	1 piece
46 066 102	3-part lounge suite, white	1 piece
66 042 000	Polyresin-figurine Bird, white	2 pieces
46 095 000	Snowy larch cones	4 pieces
39 601 000	Deco-snowflakes	10 g
39 344 000	Deco-artificial snow	15 g
33 408 000	Craft glue	80 g

Additionally you need:

33 364 000	Hot glue gun
37 104 000	Flat brush, synthetic
27 285 000	Utility knife, 14 cm

Instruction:

- 1 Paint the tray with the All purpose paint (snow-white) and let it dry well.
- 2 Cut the plug-in dry brick custom-made with the utility knife, so that it results in a mound. Then, place it at the edge of the tray and glue it firmly with a hot glue.
- 3 Spread some craft glue onto the remaining inner surface of the wooden tray and cover the area with the natural pebbles. Cover the inner edge of the tray, the brick (mound) and the sideward surface with moss panel and press it a bit on.
- 4 Mount the base of the trees.
While the craft glue still wet is, insert the deco-spruce and the deco-cypress into the brick (mound). Finally, place the arbour and the lounge suite and let them all dry well.
- 5 Lastly, decorate the tray with birds, cones, natural branches, snowflakes and the artificial snow.
