## Instruction:

- 1 Lay the mosaic tiles on the letter "X" with a spacing of 2 mm in-between.
- 2 Stick the irregular mosaic tiles onto the letter by means of tweezers and the mosaic glue. As soon as the glue has dried well out, you can start grouting.
- 3 Mix the joint sealant according to the instructions.
- 4 Spread the joint sealant over the mosaic tiles using the spatula.
- 5 Use the painting sponge slightly moistened to wipe excess joint sealant off the mosaic tiles. However, do not wipe the joint sealant out of the joints, but only from the surface of the mosaic tiles.
- 6 Let the joint sealant dry thoroughly out and then wipe the mosaic tiles again with a moistened sponge to regain their full lustre.
